Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 11-13, and 16-17, drawn to a staphylokinase derivative and a pharmaceutical composition, classified in class 514, subclass 2.
- II. Claims 9-10, drawn to a method of producing a staphylokinase derivative, classified in class 435, subclass 69.1.

It should be noted that original claims 13 and 16-17 were not found and only the amended claims 13 and 16-17 filed 9-20-01 were found in the application. The original claims filed in the application only contained claims 1-12.

The inventions are distinct, each from the other because of the following reasons:

The products of I and methods of group II are related as product and process of making.

The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process as claimed can be used to make other and materially different product or (2) the product as claimed can be made by another and materially different process of using that product (M.P.E.P. § 806.05(h)). In the instant case, the products can be made by peptide synthesizer.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their divergent subject matter and different field of search required for any one of inventions I-II is not required for any other invention I-II, thus, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143) filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 1.48(b) if one or more of the currently named

Art Unit: 1646

inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Pak, whose telephone number is (703) 305-7038. The examiner can normally be reached on Monday through Friday from 8:30 AM to 2:00 PM.
